

EXPLORER® HD

Additional Product Info*

The MagniSight Explorer HD is the latest addition to product line and utilizes new **high definition (HD)** imaging technology to deliver a clear display of text and color images even down to 2.5X magnification! Equipped with an easy to use control panel that is conveniently located at the bottom of the screen, the Explorer HD puts the controls right where you need them. And following our long tradition of quality, the Explorer HD is backed by our 3 year manufacturers warranty.

Magnification Range

- 2.5x to 57x (19" Model)
- 2.8x to 65x (22" Model)
- 3.2x to 73x (24" Model)

Optimal Viewing Modes

Three additional Select-A-Color modes (Yellow on Blue, Yellow on Black and Green on Black) are included with the standard modes (Full Color, Black on White, and White on Black). Finding the optimal setting is as easy as pushing the Mode control.

Adjustable Contrast Control

Whether you are viewing laser printed pages, low contrast newsprint, or a brightly colored photograph, the variable contrast control gives you the ability to find the ideal setting for your vision.

Viewing Table

The Viewing Table is equipped with front-to-back and side-to-side (XY) slides that allows you to position materials under the camera unit for reading, writing, and viewing various items. The table can be locked with an easy one-lever brake feature.

Warranty

The Explorer HD has one of the best quality track records of all of our products and is backed by a 3 year Manufacturer's Limited Warranty.

About Our Company

Founded in 1990, MagniSight is the longest running manufacturer of video magnifiers (CCTV's) for the visually impaired in the United States. Our products are assembled in Colorado Springs, Colorado and are sold throughout the U.S. and overseas to both individuals and agencies. One of our proudest achievements was supplying America's visually impaired veterans with our products for many years under the National V.A. contract.

Along with our own line of desktop CCTV's, we are also a distributor of high quality portable CCTV's.

A Message From Our President, Brian Smith

When I founded MagniSight, my goal was to manufacture equipment that would really make a difference in the lives of visually impaired people. This was especially important to me since, at an early age, I myself was diagnosed with a juvenile form of Macular Degeneration. Today, MagniSight continues to fulfill that goal by **combining a unique understanding of low vision with the latest technology.**
